PROJECTS

Competency Management System (CMS)

Graduation project 1 (SW) / An-Najah National University

📅 2019

- The Competency Management System (CMS)is a project that aims to form a professional network for graduate and undergraduate students with the private sector.

One of the main advantages of the CMS project is: Creating a complete profile for each user where the user fills his complete information, based on this information and job opportunities, CMS creates a CV in many forms based on the user's request in addition to the smart search feature for companies looking for employees in the field Moein, creating / publishing business opportunities from the private sector.

This project was created using HTML,JS,CSS,Node.Js,Firebase.

Smart Greenhouse

Graduation project 2 (HW) / An-Najah National University

📅 2020

- The goal of the smart greenhouse project is to form the environment a customizable mechanism to suit the growth of different types of plants, through an intelligent embedded system that controls various environmental aspects.

The importance of the project lies in automatic environmental control and remote monitoring of greenhouses. The farmer does not always have to go to the greenhouse. The system will automatically create the environment for many types of plants, regardless of weather or the nature of crops throughout the year.

STRENGTHS

C / C++ Java Data structures
web development CSS HTML JS
Bootstrap Vue.js node.js PHP
SQL Oracle database Firebase
Testing Skills Debugging Skills
VHDL Assembly language
Verilog and sysVerilog(by Synopsys tool)
VLSI Design
basic Verification and validation skills
Linux Commands

Adobe xd

LANGUAGES

EDUCATION

High school diploma

Al-Faraa Girls Secondary School

📅 Sept 2015

BA In Computer Engineering

An-Najah National University

📅 Sept 2015 – August 2020

Hotel Management system

Data Base course/ An-Najah National University

📅 2017

- Creating management system for the hotels using java and Oracle Database .

Online purchase system

Web development / An-Najah National University

📅 2018

- Online store using HTML,JS,CSS,PHP,SQL.

CERTIFICATION AND COURSES

English "Conversation" Course

Swiss Company

📅 2018

Verification and Validation course

An-Najah National University

📅 2019
